Hi all!

I'll update my website <https://lauraschaposnik.com/students/> soon - could you send me a photo so I can add you? and if you have a link to your website or something you'd like me to add do let me know too

thanks!

Laura

Dear Dr. Schaposnik,

Certainly! I have attached a photo here. I am hoping to set up a website that focuses primarily on my math interests and background, because my LinkedIn page more heavily focuses on my professional work. I will include a link to both my LinkedIn and Chicago State's Math Department — please feel free to use whichever one you think is a better fit.

LinkedIn: <https://www.linkedin.com/in/andrew-burley/>

Chicago State University - Department of Computing, Information and Mathematical Sciences, and Technology (CIMST): <https://www.csu.edu/cimst/math.htm>

Please let me know if I can provide anything else that may be helpful!

Also, I've finalized the remaining CSU faculty who will serve on the thesis committee. Sometime in the next few weeks I will be sending out a formal announcement that the thesis committee has been formed. I will send an email to you for a brief review and approval prior to sending this notice, and I will include both your Gmail and UIC emails on that communication. No action is required at this time, but I wanted to be sure you were aware of the next steps.

Thanks so much,
Andrew Burley

Hello Laura,

Happy Friday! We were thinking it might be better to wait a little before listing Michelle on the website, until she has more research completed and publicly available. Michelle is still new to research. :-)

Thank you for your understanding, and we appreciate all your support for Michelle.
Thanks,
Michael
